-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 5 recites the limitation "window width" in claim 5. There is insufficient antecedent basis for this limitation in the claim.
4. With respect to claim 5, the phrase "window width" is unclear. What kind of window width is being referenced? Smoothing, time, etc.

### *Claim Rejections - 35 USC § 102*

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Feldman (5,457,999).

In regards to claim 1, Feldman teaches the method for noninvasive measurement of an internal pressure ( $P_{sub. 0}$ ) in elastic vessels in which a force ( $P_{sub. 1}$ ) is measured on the outer

Art Unit: 2855

surface of the vessel and the internal pressure ( $P_{sub. 0}$ ) is ascertained with the aid of a difference from the measured force and a relaxation profile (being read as a resonant frequency) estimated in advance, characterized in that the relaxation profile is repeatedly checked after the start of the measurement (Column 6, line 61 – Column 7, line 17).

With respect to claims 2-4, Feldman teaches characterized in that the relaxation profile is ascertained with the aid of an averaging method, characterized in that an averaging is done in at least two different ways which differ in their smoothing width, and characterized in that a difference of the averages is continuously formed with differing smoothing widths (Column 7, lines 9-35).

#### ***Allowable Subject Matter***

7. Claims 6-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jermaine Jenkins whose telephone number is 571-272-2179. The examiner can normally be reached on Monday-Friday 8am-430pm.
